

FULIGIN

LORE & VIBE GUIDE

A minimalist, high-contrast retro arcade synthesis of Gene Wolfe's *Book of the New Sun*, Jack Vance's *Dying Earth*, and the surreal landscapes of *Caves of Qud*.

Set in the **Latter-Day**, the universe is dying under the **Solar Rust** of a swollen red cinder. You are a **Cugel**, taking dangerous gambles in orbital graveyards, salvaging holy **Reliquaries** while hunted by voiceless **Ascian** executioners.
